tips to look your best

Children: Solid colored, long sleeved outfits are the best choice for showing off your child's facial features and expressions. If bringing props, be sure to select matching clothing color and style. While the colorful clothing is fun for a secondary outfit, it may not be suitable for a "timeless" quality portrait.

Families: With multiple subjects in the portrait, it is especially important to dress in complimentary colors and style to capture your relationship. For a casual family portrait, you may want to select something a little more fun or maybe your family shares a common interest and would like to capture it.

Pets: To make pets more comfortable, we suggest you bring along their favorite toys and lots of treats!

Outdoor Portraits: As a background, the outdoors is very busy. It is important to choose only one or two theme colors, with everyone wearing shades of those colors. Wear colors that you see in nature. As always, sleeves are recommended for any type of portrait.
